UnitedHealthcare gives you access to quality care, both in Maryland and nationwide.

Things to consider when choosing a plan

Is your provider in the network?

Getting care from network doctors, clinics and hospitals may help you save money. There are 2 ways to see if your providers are included:

- Go to [whyuhc.com/stateofmaryland](https://www.whyuhc.com/stateofmaryland) > **Search for a Provider** and choose the health plan you're considering to view network providers
- Visit [myuhc.com](https://www.myuhc.com) to search for a provider without needing to sign in

What are the plan details?

Make sure to review each plan's overall costs, deductibles and copays (if applicable), plus their wellness programs, tools and apps.

Choose the path that's right for you

You have 2 plans to choose from: **Choice EPO** and **ChoicePlus PPO**.

Choice EPO

- Certain services are covered at 100%; for non-preventive care provider visits, you'll have a copay
- You have coverage for network services only; if you see an out-of-network provider, you'll pay for services out of pocket

ChoicePlus PPO

- You'll have copays for non-preventive care network provider visits
- You'll be responsible for coinsurance until you meet your out-of-pocket maximum
- While you have out-of-network coverage, those providers will likely charge more

Care when and where you need it

No matter which plan you choose, you'll have access to our network of providers and hospitals, with:

- Access to nearly 1.8 million physicians and health care professionals (plus over 165,000 vision provider access points nationwide, including Warby Parker and GlassesUSA) and over 5,600 hospitals*
- **A local network that includes every hospital in Maryland**
- No referrals needed to see specialists
- Access to mental health and substance use benefits
- The option to see a provider from the comfort of home with 24/7 Virtual Visits or scheduled virtual primary care through [myuhc.com](https://www.myuhc.com) or the **UnitedHealthcare app**
- The option to use your provider's telehealth system to see and talk to your own doctor, specialist or mental health provider via smartphone, tablet or computer

*As of June 2024.

Save dollars by putting wellness first

2025 Wellness Plan

The State of Maryland is continuing their Wellness Plan in 2025. All employees, spouses and non-Medicare retirees are asked to complete all 4 wellness activities for 2025. Please note that 2025 is a Wellness Plan reset year, so activities completed in 2024 do not carry over. **Participating in this plan can help you save money on your health care with \$0 copays on primary care provider (PCP) and behavioral health office visits and 24/7 Virtual Visits, plus a reduction in specialist visit copays.**

Get \$0 PCP copays

Earn copay-free primary care provider (PCP) visits, 24/7 Virtual Visits and behavioral health visits for 2025. That's a savings of \$15 per visit, for just 15 minutes online.

To get this savings, complete the Health Survey and confirm you have a PCP on Rally®.

Follow these steps:

- 1 Sign in or register at myuhc.com
- 2 Go to **My Account > Rewards**
- 3 Register for Rally and complete your Health Survey
- 4 Go to the "Rewards" section to confirm your PCP

Note: You can also find your status in the "Rewards" section.

Save on specialist copays

Visit your PCP to get any recommended preventive screenings. If you complete at least one of the following preventive care activities, you'll save \$5 on specialist copays.

- A routine checkup, including personal history, blood pressure, body mass index, physical exam and comprehensive metabolic blood panel including LDL/HDL, hemoglobin A1C and CBC
- Breast cancer
- Cervical cancer
- Colorectal cancer
- Tetanus and diphtheria immunization
- Type 2 diabetes

Complete an annual vision exam in addition to another screening to save up to \$10.

Qualifying for the Wellness Plan

To get the full value of the Wellness Plan, complete the following actions.

1 Complete an online health assessment

You have 2 options:

- a. Complete the Rally Health Survey on myuhc.com located under My Account (click “Rewards”)
- b. Complete the State of Maryland’s Health Assessment located on the State of Maryland’s Department of Budget and Management website

Confirm your selection under the “Rewards” tab in Rally.

Complete steps 1 and 2 to earn \$0 copays on PCP and behavioral health office visits and 24/7 Virtual Visits.

3 Complete preventive care screenings

Take the list of screenings with you to your annual physical exam. Complete any screenings your doctor recommends to receive the \$5 specialist copay reduction. This savings can be combined with the vision exam \$5 reduction.

4 Complete a vision exam

Complete an annual vision exam to receive a \$5 specialist copay reduction. This savings can be combined with the preventive care screenings \$5 reduction for a total of \$10 off specialist copays.

Support every step of the way

Preventive care may help you catch health problems early, when they're easier and less costly to treat.

Prioritize preventive care

Regular preventive care is covered 100% by your health plan when you see a network provider.*

Covered preventive services include:

- An annual exam
- Cancer screenings
- Cholesterol and blood pressure screenings
- Immunizations—including flu shots
- Pap tests and mammography for women
- Prostate screenings for men

To see which preventive care screenings you need and what's covered, visit uhc.com/preventivecare.

Ways to make the most of your visit

- **Plan ahead.** Write down any symptoms, concerns or questions so you don't forget.
- **Listen carefully.** Be sure you understand what your doctor is telling you. Ask for written instructions, if needed.
- **Take someone with you.** They can take notes and help you remember what was said.
- **Ask questions.** Tell your doctor if you have any concerns about your treatment and recommended screenings or about any costs.

- Asthma
- Chronic back pain
- Chronic obstructive pulmonary disease (COPD)
- Coronary artery disease (CAD)
- Diabetes
- Heart failure
- Hyperlipidemia
- Hypertension

Condition management

If you or a loved one has a chronic health condition or have experienced a catastrophic health event, you probably have questions. A personal nurse can help you explore care options and provide additional support and resources for more than 100 chronic conditions. Call **1-800-382-7513, TTY 711**.

Preventive vs. diagnostic care—know the difference

Preventive care includes routine screenings performed during your annual preventive care visit, when you don't have specific symptoms to be checked or an illness to be treated. Diagnostic services include treatment for specific conditions, ongoing care, lab work or other tests needed to manage or treat a health condition. Depending on your benefit plan, you may have to pay for any diagnostic services done during your preventive care visit.

*Certain preventive care items and services, including immunizations, are provided as specified by applicable law, including the Patient Protection and Affordable Care Act (ACA), with no cost-sharing to you. These services may be based on your age and other health factors. Other routine services may be covered under your plan, and some plans may require copayments, coinsurance or deductibles for these benefits. Always review your benefit plan documents to determine your specific coverage details.
